Accessing the UpToDate Mobile App

1. Go to UpToDate. You **MUST** use the URL below. This will associate you with LMU.

2. Sign in with your LMU information.
3. Choose to Log In/Register

The following topics on Ebola virus disease are freely available to the public and will be updated as new information is reviewed:

- Treatment and prevention of Ebola virus disease
- Clinical manifestations and diagnosis of Ebola virus disease
- Epidemiology and pathogenesis of Ebola virus disease
- Patient information: Ebola (The Basics)
4. Register. **Remember your username/password. You will need this to log into the app later!**

**Register for important benefits**

Register for a username and password today to get our mobile app for iOS, Android or Windows 8 tablet devices. (An email will be sent with instructions on how to get the app after registration). Plus, you can now log in directly to UpToDate remotely.

**Log in (Returning User)**

Log in with your UpToDate user name and password.

- **User Name**: eweyant
- **Password**: *******

**Register (New User)**

Select your user name and password

- **User Name**: eweyant
- **Password**: *******

5. Via the internet on your phone/tablet, download the UpToDate app from Google Play or the App Store depending on whether you have an Android or Apple/iOS device. The app requires Android 2.2 and up or iOS 5.0 or later.
6. Open the app. Sign in to the app with the **registered username/id from step 4**. If your username/password combo isn’t working, you may have forgotten your username/password. Choose “Forgot Password?” to have this info re-sent to your e-mail affiliated with the account. If this still isn’t working, I’d suggest contacting UpToDate as there may be underlying issues with your mobile device (cookies, OS capabilities, etc.)

These are **NOT** your LMU login credentials. These are the login credentials you created in step 4.
7. Now that you have access to the UpToDate mobile app, you will have to maintain it. To maintain access to the app, make sure that you log in to UpToDate from LMU (steps 1-3) at least once a month.

8. To see when your app access expires, log into the app, select “Settings,” select “Account,” and view when your subscription ends.
